

P3s in Infrastructure

Changing Government Procurement & Implementation

A presentation to:
BC Expropriation Association
25th October, 2002

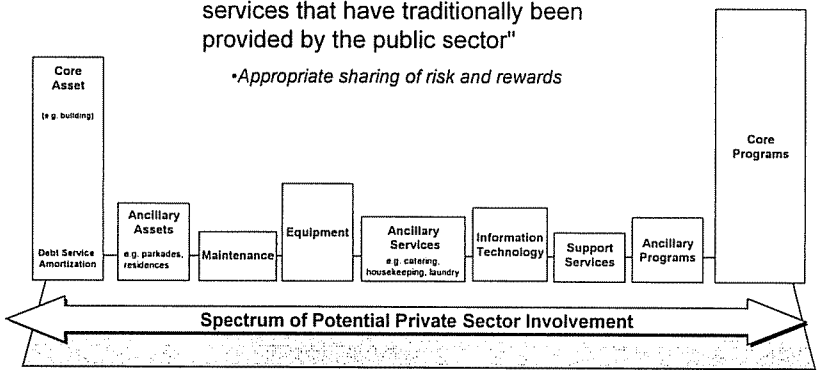

Why P3s

- ❖ **Government emphasis**
 - ◆ Increased private sector involvement
 - ◆ Open procurement
 - ◆ Lack of capital, provincial financial problems
- ❖ **Ministry/agency dimension**
 - ◆ Increasing service demand & service rationalisation
 - ◆ New projects may help meet fiscal targets
 - Justification: improved efficiency
 - Implies closures of less efficient projects/services
- ❖ **Fundamental key: scope management**

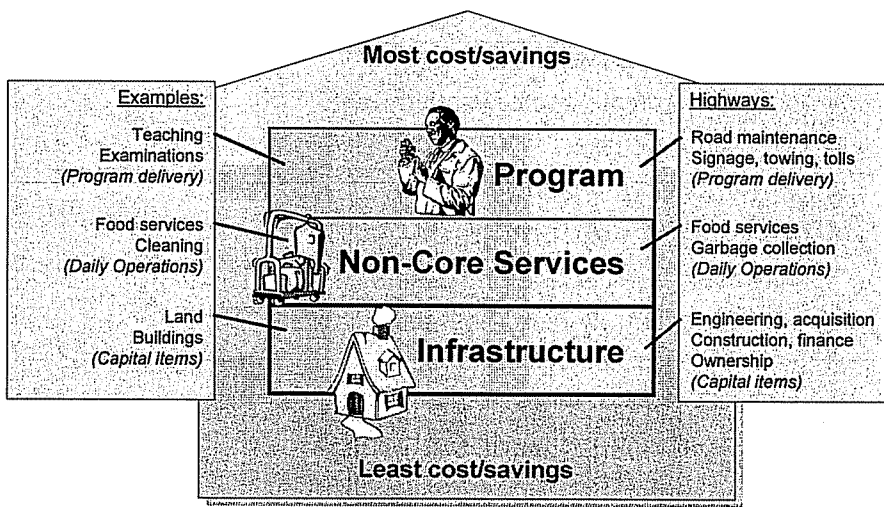

P3 Definition

"Contractual arrangements between government & a private party to provide assets and the delivery of services that have traditionally been provided by the public sector"

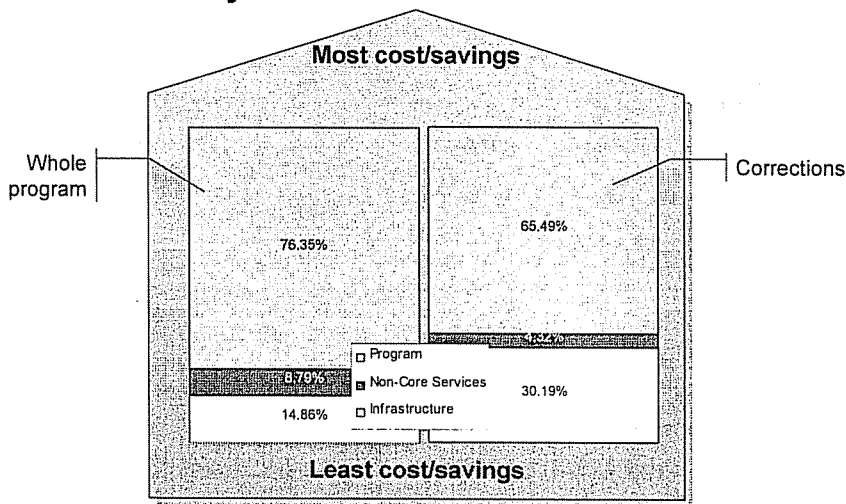

•Appropriate sharing of risk and rewards

The Business: P3 Components

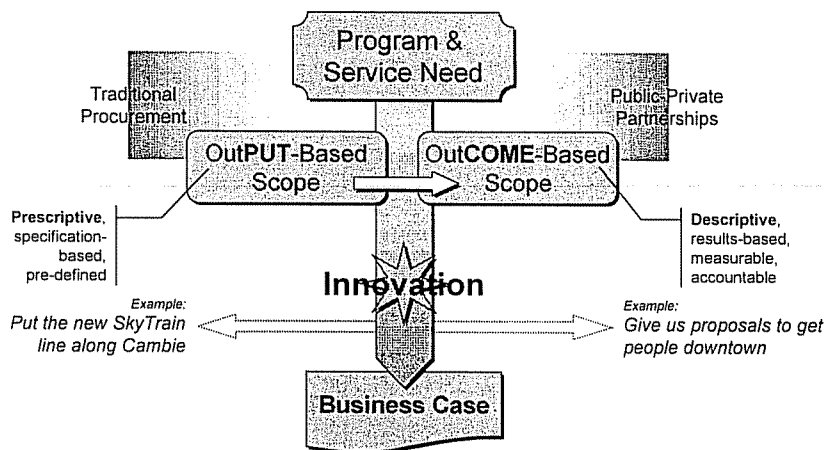

Relative Importance/Value Public Safety & Solicitor General

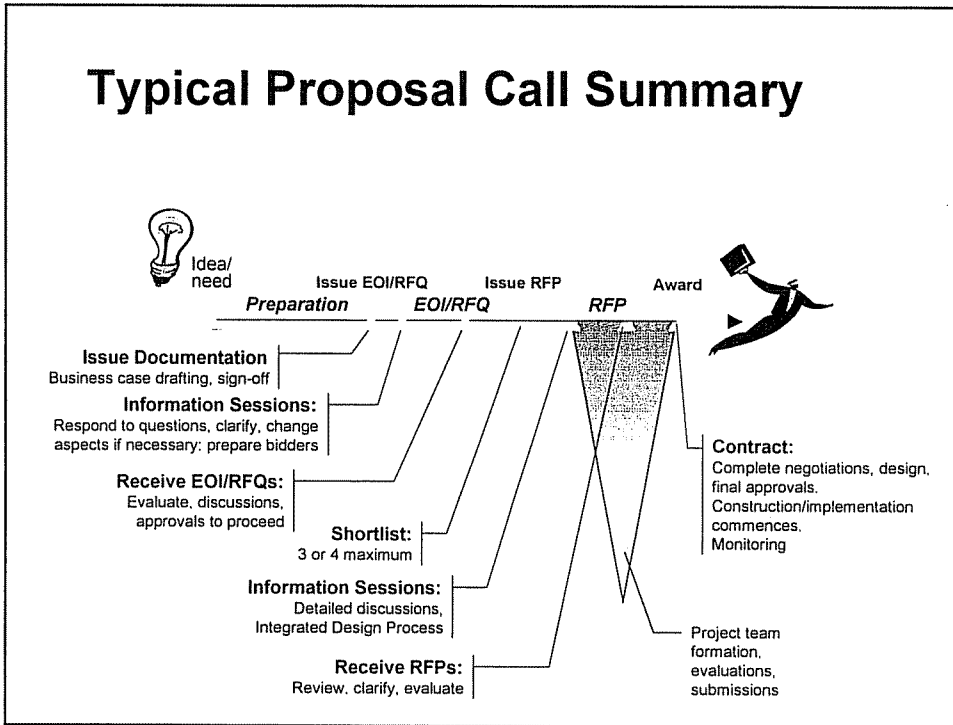

Source: Based on BC Government Estimates – "Blue Book"

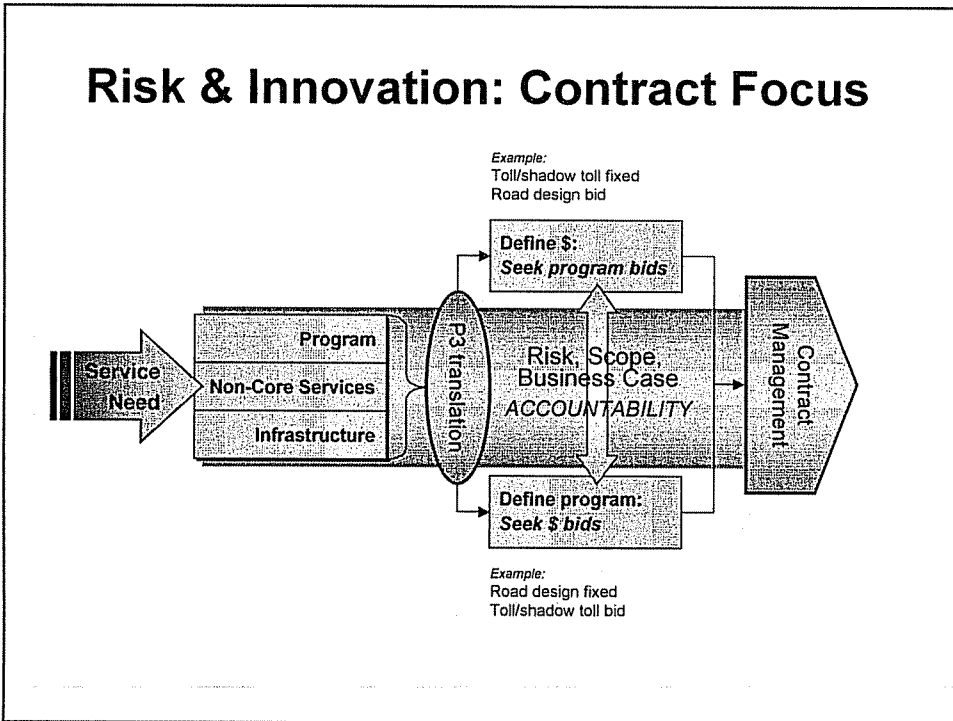

Underlying Difference: Translation to Business Case

Typical Proposal Call Summary

Risk & Innovation: Contract Focus

Example: Highway 407, Ontario

❖ The business

- ◆ TPC of \$1.6bn
- ◆ Sold for \$3.1bn
- ◆ Appraised at \$6.1bn

❖ A success?

- ◆ 5 bids
- ◆ \$1.6bn 'profit'
- ◆ User fee increases
 - 6.7¢/km to 11.5¢/km
- ◆ Mostly liked

www.407etr.com

Example: Confederation Bridge, PEI

❖ The business

- ◆ Concession P3
- ◆ Build, finance, operate & maintain
- ◆ Guaranteed by federal government

❖ A success?

- ◆ Traffic projection
- ◆ Private sector profit
 - Not a full sharing of risk/rewards
- ◆ Bridge is liked

Main Criticisms

- ❖ **Government debt is cheaper?**
 - ◆ Gap is manageable with a contract approach
 - ◆ Offset by other efficiencies, risk benefits
- ❖ **Private = lower quality?**
 - ◆ Scope is key ⇒ requires tight definition
 - ◆ Ministers bear ultimate brunt of problems
- ❖ **Not many successes?**
 - ◆ Many existing services are already P3'ed
 - Health examples: GPs, dentists, long term care
 - ◆ Failures due to Operating Lease
- ❖ **Job losses?**

What's in it for BCEA Members?

- ❖ **More business?**
 - ◆ Advice to Ministry
 - ◆ Advice to proponent teams
 - ◆ Same old acquisition business
- ❖ **Who's the client?**
 - ◆ Less from government
 - ◆ More from proponents
- ❖ **Marketing implications**
 - ◆ More networking
 - ◆ Quality partnerships
